

How it works

The LINK is programmed to offer optimal head and legroom while it gracefully exits the vehicle and lowers the original seat to the desired height, for easy level transfers. If you prefer standing to transfer, the LINK can assist you with its lift-up feature.

Features

- Easy to use
- Movements tailored to your needs
- Always use the original seat
- Personalized seating memory
- Unmatched legroom and comfort
- Forward and aft movement
- Adjustable seat tilt
- Seating behind the LINK unaffected
- Seatback reclines completely

Specifications

- Maximum capacity: 350 lbs
- Equipped with an emergency back-up system
- Power supplied by your vehicle
- Power is not drained while LINK is not in use
- Optional footrest

LINK
Innovative vehicle access

Connect with your vehicle

The LINK is an innovation like no other. Its technology is unsurpassed. Keep the look, comfort and style of your vehicle. It is compact, reliable, safe and easy to use. Get your vehicle, your way.

Fits in place

The LINK is designed to fit in the driver or front passenger position as well as second row passenger positions in a vast array of vehicles.

It is installed into the original seat mounts with no structural modifications to your vehicle. It can easily be removed to return the vehicle to its original condition without affecting the resale value.

Adaptive equipment

Our products qualify as adaptive equipment and are eligible for reimbursement under the terms of Mobility programs offered by various vehicle manufacturers.

Due to the diversity of mobility solutions available to you, please contact your local mobility dealer for a personalized evaluation and overview of options tailored to your needs.

About us

We take our customers' safety very seriously. We are dedicated to manufacturing quality mobility equipment. Our products undergo a strict certification process.

Certification of our products involves different tests such as: crash testing, cycle testing and weight capacity testing. We are proud to offer a line of products that exceed the industry's standards.
